Objective

Java Full Stack Developer and MCA graduate with hands-on experience in Spring Boot, React.js, Microservices, and AWS Cloud. Passionate about building scalable, production-grade applications backed by strong System Design, DSA, and AI/ML integration skills. Seeking a challenging engineering role to deliver impactful, high-quality software solutions.

Experience

Infosys Springboard

Oct 2024 – Jan 2025

Software Development & AI Intern

Remote, India

- Engineered a real-time Object Recognition System using TensorFlow and OpenCV, improving detection accuracy by **20%** through 5+ rounds of iterative deep learning model fine-tuning.
- Built and deployed **3** production-ready Python and ML applications across the full SDLC within a **4-month** internship, integrating Git version control and CI/CD pipelines.
- Reduced manual validation effort by **30%** by collaborating with a cross-functional Agile team of **5** to automate AI-powered solution workflows.

Tech Mahindra – AWS re/Start Program

Dec 2023 – Mar 2024

Cloud Computing Trainee

Visakhapatnam, India

- Achieved AWS Certified Cloud Practitioner certification with a score of **864/1000**, demonstrating proficiency across **6+** AWS services including EC2, S3, RDS, IAM, Lambda, and VPC.
- Completed an intensive **12-week, 300+ hour** program covering Linux, Python scripting, Networking, Cloud Security, and Databases, graduating in the top cohort of the batch.

Projects

AI-Powered Fake News Detector | Python, PyTorch, BERT, Flask, Docker

May 2025

- Orchestrated a full MLOps pipeline fine-tuning a **BERT** transformer on GPU, cutting inference latency by **40%** and deploying a Flask web app serving **100+** real-time credibility checks.
- Engineered a hybrid credibility engine achieving **96% NLP accuracy** by blending transformer predictions with rule-based source reputation scoring, reducing false positives by **35%**.
- Containerized with a **multi-stage Dockerfile** (image size reduced by **60%**) and deployed on Hugging Face Spaces with automated CI/CD via **GitHub Actions**.
- [🔗 Live Demo](#) [🔗 GitHub](#)

Object Recognition System | Python, TensorFlow, OpenCV, Flask

Jan 2025

- Designed and trained a real-time object detection system using custom **TensorFlow** and **OpenCV** models, achieving **85%+ mAP** across **10+** object categories.
- Boosted model accuracy by **20%** through **3** rounds of hyperparameter tuning, data augmentation on **5,000+** images, and transfer learning with pre-trained weights.
- Built a **Flask REST API** dashboard processing live video feeds at **25+ FPS**, enabling real-time visualization and **sub-100ms** response for classification requests.

Technical Skills

Languages	Java, Python, JavaScript, SQL, C, HTML/CSS
Backend	Spring Boot, Spring MVC, Hibernate, JPA, REST APIs, Microservices
Frontend	React.js, Tailwind CSS, HTML5, CSS3, Vite
AI & ML	PyTorch, TensorFlow, Scikit-learn, OpenCV, BERT, NLP, Deep Learning, MLOps
Cloud & DevOps	AWS (EC2, S3, RDS, IAM, Lambda), Docker, Git, GitHub Actions, CI/CD, Linux
Databases	MySQL, PostgreSQL, MongoDB
Core Concepts	System Design, DSA, OOP, Design Patterns, Agile, SDLC
Developer Tools	IntelliJ IDEA, VS Code, Postman, Maven, Jenkins

Education

Kalinga Institute of Industrial Technology (KIIT University)

2023 – 2025

Master of Computer Applications (MCA) | CGPA: 9.5/10.0

Bhubaneswar, Odisha

Acharya Nagarjuna University

July 2017 – May 2021

Bachelor of Hotel Management

Visakhapatnam, Andhra Pradesh

Relevant Coursework

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Management
 - Operating Systems
 - System Design
- Cloud Computing (AWS)
 - Web Technology
 - Artificial Intelligence

Certifications

AWS Certified Cloud Practitioner <i>Amazon Web Services</i> • Score: 864/1000 — EC2, S3, RDS, IAM, Lambda, Cloud Architecture & Security.	March 2024
Frontend Developer Professional Certificate <i>Meta via Coursera</i> • React.js, JavaScript, HTML5, CSS3, and responsive web development.	August 2023
Principles of Generative AI <i>Infosys</i> • Score: 85% — LLMs, GPT-3, Generative Models, Prompt Engineering.	August 2024
Artificial Intelligence Primer <i>Infosys</i> • Score: 67.5% — AI Fundamentals, Machine Learning, NLP, Data Science, RPA.	August 2024
